

Example Programmes

Activities are planned for each day for all the groups at KPS Active, offering a blend of Outdoor Activities, Sports and Crafts. We are very fortunate in having access to so many areas around the Kingswood School grounds and, with this in mind, the programme is always flexible taking into account the good old British weather and also the needs and interests of the group. Below is a typical example of a timetable for one of the weeks run during the Summer Holidays. The list of the day's activities is displayed in the entrance as the children arrive so that everyone can see the plan for the day.
